CORPORATE MIND MAPPING COURSE

**Improve Corporate Learning, Growth Leadership,
& Development ROI through Mind Mapping**

“

Sania Alam is the Queen of Mind Mapping.

Tony Buzan, Inventor of Mind Mapping

”

Mind Mapping is used within Fortune 500 Companies such as Apple, United Nations, Disney & NASA. It was also earlier used by Leonardo da Vinci and others.

Course Endorsed by
Tony Buzan
Inventor of Mind Map

Inspirationally Taught by
World Class Expert, Sania Alam
Super-Learning Master Trainer

WHAT IS MIND MAPPING?

Mind Mapping is a versatile tool that optimizes productivity & performance level by unlocking the potential of your corporate team and opening-up new neural pathways, so your team can Learn Smart & Work Smart!

Mind Mapping is a powerful method of visually capturing and organizing information, it is a universal key to unlocking the potential of the brain, by using words, images, numbers, logic, rhythm, color and spatial awareness – in a single, uniquely powerful manner. In so doing, it gives you the freedom to roam the infinite expanses of your brain. A Mind Map can be applied to every aspect of life where improved learning and clearer thinking will enhance human performance.

*Learn the **ORIGINAL** Mind Mapping technique invented by Tony Buzan.*

We are licensed instructors from U.S.A. and U.K. This course is the culmination of our institute's 20 years of research into human brain, mind, heart, and consciousness, as well as 40 years of research by Tony Buzan and other prominent figures.

WHAT YOU WILL GAIN...

- Ace Any & All Types of Exams.
- Achieve Clearer Thinking.
- Brainstorm Powerful Ideas Through Association.
- Comprehend & Process Information Faster.
- Develop Excellent Problem-Solving Skills.
- Easily Visualize & Communicate Complex Information & Concepts.
- Efficient Planning & Execution of Tasks & Ideas.
- Enhance Your Brain's Natural Thinking Power.
- Harness the Power of Visual Thinking.
- Improve Cognitive Skills.
- Improve Memory & Recall.
- Improve Team Collaboration & Communication.
- Improving Critical Thinking.
- Keep your skill set up-to-date and learn new trends in the industry by learning what you need, more rapidly.
- Learn Faster & Save Time!
- Manage projects to perfection by planning from start to finish.

- Research & consolidate vast information from multiple sources.
- See connections, hierarchies & relationships between ideas & topics.
- See the big picture of a situation or problem, ideal for decision making.
- Streamline Meetings & Workload.
- Structure Vast Amount of Information.

COURSE INCLUDES

We are experts in the art of teaching. You will have a fully immersive learning experience, because we address your inner learner

Visual

Auditory

Kinesthetic

LEARN THE 7 POWERFUL APPLICATIONS OF MIND MAPPING

1. Effective Note-Taking

Learn the Art-of-Summarizing. Take detailed yet precise notes from books, files, meetings, lectures, conferences. A must-have skill for to enhance performance. Record, retain & recall vast

2. Powerful Presentations

Whether you're presenting in a meeting or on the big stage, Mind Mapping will help to plan and deliver captivating and engaging presentations. Also learn how to get rid of your stage fear and deliver your presentations confidently. Fear of Public Speaking is one of the most common fears, which you can conquer through Mind Mapping.

3. Ace Exams

Learn to capture & organize information in a visual format to facilitate understanding, retaining, integrating, & applying what you have learned. Mind Mapping helps retain the information in your long-term memory so learning becomes simple, fun & struggle-free.

4. Enhance Creativity

"If you don't have your own creative ideas, you will end up working for someone else's." At workplace, creativity is a crucial factor for success. Learn to explore new possibilities, transcend old ways of thinking & view information from different perspectives.

5. Problem Solving

"A problem well stated is a problem half solved." Problem Solving ability is always in high demand by employers & large corporations as it displays both logical and creative thinking. Mind Mapping will help you define & view all aspects of the problem so you can find creative solutions.

6. Improve Writing Skills

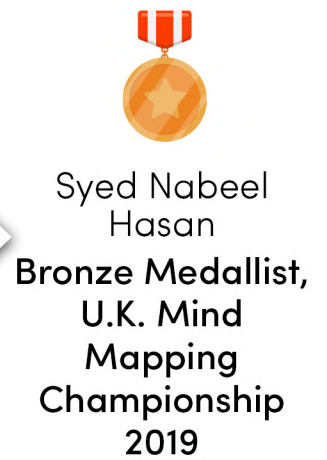

Whether it's for an assignment or a business proposal, Mind Mapping will help you brainstorm, explore topics, develop & organize ideas, prepare outlines and summaries to help you write effectively and effortlessly.

7. Group Activities

Be it group meetings, planning or project management, Mind Mapping will help get the best out of any team. When it comes to business, being able to achieve team collaboration for collective vision promotes a far more efficient way of working.

We bring to you, multitude of

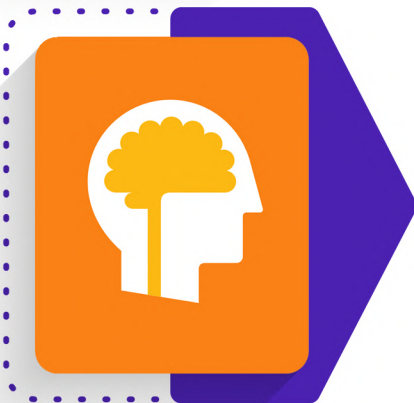

BREAKTHROUGH-IN-BRAIN-SCIENCE TECHNOLOGIES

all infused in a single course, so your team can reap optimum results!

PEMF Head Band

By applying non-invasive energy into the body, it stimulates the cells to help them function just the way they were intended to. This device emits electromagnetic waves at different frequencies such as Delta, Theta, Alpha, Beta, and Gamma, to improve cognitive performance, strengthen attention & focus, optimize your mental capacity, energize cells on a molecular level and revitalize the body and mind through brain-wave entrainment.

Lumosity Games

Improve memory, attention, flexibility, speed of processing, and problem solving while having fun playing engaging yet scientifically researched and designed games.

Technology of Heart-Coherence

(Learn to emotionally stabilize yourself within minutes)

Technology of Brain-Coherence

Ideal State of Mind - Synchronize Left/Right Brain Hemispheres for Whole Brain Learning

BREAKTHROUGH-IN-BRAIN-SCIENCE TECHNOLOGIES

Brainwave Entrainment

Engineered soundtracks used throughout the course use particular brainwave frequencies in order to induce an altered state. Brainwave entrainment prompts the brain to access a particular state through a variety of different audio stimulations. Essentially, the stimulation convinces the brain's activity to synchronize to the external stimulation. Brainwave entrainment involves picking a sound associated with a particular brain wave to alter your state. As you can see, each type of brain wave is associated with a different state.

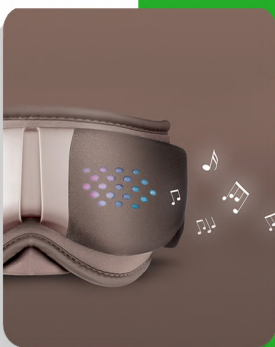

Benefits include:

- o Optimum Learning State (alpha waves)
- o Increased Attention (gamma and beta waves)
- o Improved Memory (gamma and beta waves)
- o Mood Boost (gamma and beta waves)
- o Healthy Sleep (theta and delta waves)
- o Reduced Stress & Anxiety (alpha waves)
- o Enhanced Meditation (alpha waves)

uGalaxy Eye Massager

The mood light in this device gently stimulates brain activity to achieve the most desired state of relaxation, balance and rejuvenation. Cool and warm mood light combination awakens your eyes and helps you to regain vitality.

It also includes relaxation music via built-in audio speakers. Studies have shown that music helps you to relax, reduce stress, sleep better and uplift your mood. With the 3 unique music pieces delivered via the built-in audio speakers (without the hassle of external earphones and wires), the uGalaxy eye massager offers you both physical and mental relaxation at the same time.

HUMAN CAPITAL DEVELOPMENT

is the Key Factor for a Successful & Thriving Business!

Bring our world-class Super-Learning trainings to your company with Onsite Workshops and Full Training Programs. We train large or small groups of Executives, Managers, Employees together at the location of your choice and customize the content to meet your objectives.
